The winning Rebels almost scored on the opening kickoff as Dewey Floyd took the ball on his own 39 and raced to the R-H 35 before he was brought down. A few plays later, Edwin Stanley took the ball over from 18 yards for the only score of the night.

The run for the PAT failed.

# Council Reviews Plans For New Fire House; Lagoons Are 80 Per Cent Complete

Appomattox Town Council, meeting Monday night, reviewed preliminary drawings of a proposed Fire House, Town Manager's headquarters and Council Meeting room.

Councilmen were also told that the sewage lagoon is "eighty per cent complete," according to Mayor S. R. Lawson. Dr Lawson said there is a good possibility that the new facility will be in operation within a month.

**Shows Plans**

Councilman Ivey Holland explained that the new Fire house would front on Court Street with a side entrance to the Town Manager's office and upstairs meeting rooms for firemen and town council on Linden Avenue. This second floor entrance would be nearly on street level, he explained, because of the slope of the property purchased by the town. Four bays with four overhead, sliding doors, would provide access to town and county fire fighting equipment on the lower Court Street side.

The building, as planned now, has overall dimensions of 62 feet by 38 feet, with a total of 4800 square feet.

## Old Belt Markets Open Today

The Virginia - North Carolina Old Belt markets open Thursday, Sept. 24 for auction of 1964 flue-cured tobacco crop. Tobacco experts hail the current crop as the best Old Belt tobacco raised in many years.

For all the adjectives being used to describe the bright crop, only the sound of the auctioneer chant will dispel an anxiety that has crept through the belt in recent days, as earlier opening bells have been forced into two holiday periods because of congestion at processing plants.

The Old Belt itself has experienced a two-day delay in opening because of the congestion in redrying plants. The sales week has also been reduced to four days, Monday through Thursday.

**High Pool Sales**

Officials said most of the congestion has resulted in plants processing tobacco for the Flue-cured Tobacco Cooperative Stabilization Corp. which receives tobacco under the government loan program. Deliveries to the pool have been increasingly heavy, especially on the big Eastern belt where 40 per cent of all tobacco sold several days last week went to the government pool.

This is causing concern among Old Belt growers because last year when hard hit by a drought, they turned over 43 per cent of their leaf to stabilization.

Knowledgeable market officials think the Old Belt crop will be in strong demand among buyers this year.

Roy B. Davis, Jr., Virginia tobacco agent, said it appears to be "a good smoking crop."

## Vera P-TA Will Meet Tonight

The P-TA of Vera Elementary School will meet tonight, Sept. 24 at 7:30 p.m. All parents, patrons, and friends are urged to attend.

Oil heat is being planned for the firemen's section, the four-bay area, and dressing rooms, and meeting room with electric baseboard heating for the Town Manager's office and Council meeting room.

Robert Sears, who drew up the plans, estimated costs at $15-20,000. Council voted to secure bids from at least two county contractors after Sears draws up specifications and blueprints. Bids and blueprints are expected to be ready for Council's examination at their October meeting.

Assistant Fire Chief C. R. (Skinny) Wooldridge,, present at Monday's meeting, expressed his approval of the plans.

No action was taken on several matters brought before the Council by members. Randolph Gilbert said that some property owners are asking for a return of two-way traffic on Atwood St. Richard Wingfield suggested further study to the problem of traffic congestion on Church Street in the vicinity of Appomattox High School.

**Building Permits**

Building permits were granted to Mary Marshall for a bathroom addition to her home on Patricia Ann Lane, and to Herbert Carwile for two dwellings on North Avenue.

Water permits were granted to William Stevens, Rt. 131, just outside the town limits, and for the Rescue Squad building, just off 460 West, outside the town limits.

A sewage permit was given to Mr. and Mrs. Ronald Paolette for the Dairy Queen on Rt. 460 west of Appomattox.
